Protect
batteries from
fire hazards!

The Innovative Advantages of the Fire Blanket!

Unlike fire extinguishers, fire blankets are **lightweight, compact**, and ready for immediate use during the early stages of a fire.

No powders or chemicals are used, allowing you to extinguish fires cleanly **without contaminating** the surrounding area.

Easy for children and seniors to use.

Withstands temperatures up to **1000°C**, effectively blocking flames and heat to prevent fire spread.

Easy Storage

Can be folded and
stored easily!

Ready to Use

Simply Unfold and
Cover the Fire!

Anti-Theft Protection

Unique
Serial Number

Compact and lightweight for easy storage,
Keep it within reach, anywhere

**Ready for immediate use
whenever you need it.**

Certificate No. 2602065

How to Use

1

Locate the fire blanket
pouch as soon as a fire is
detected.

2

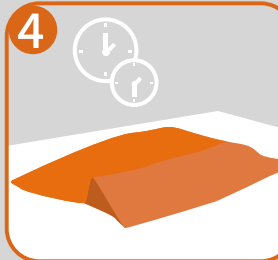

Pull the fire blanket out of
the pouch using the release
straps.

3

Carefully cover the fire
completely with the fire
blanket.

4

Leave the fire blanket in
place until the fire is
completely extinguished.

Call 119 if necessary.
